User Guide

TURN ON THE CONTINENTAL BY ROTATING THE VOLUME
/ POWER KNOB CLOCKWISE UNTIL THE POWER INDICATOR
LIGHT ILLUMINATES.

SET YOUR GAIN LEVEL: HIGH FOR HEADPHONES AND LOW
FOR EARPHONES.

CONNECT YOUR EARPHONES OR HEADPHONES TO THE
AMPLIFIER WITH THE VOLUME AT A LOW LEVEL.

ONCE CONNECTED GRADUALLY INCREASE THE VOLUME TO
FIND A COMFORTABLE LISTENING LEVEL FOR YOU.
REMEMBER THAT PROLONGED LISTENING SESSIONS AT
HIGH VOLUMES CAN POTENTIALLY DAMAGE YOUR
HEARING. PLEASE NOTE THAT SOME IEMS MAY BE TOO
SENSITIVE TO BE USED WITH THE CV5 SAFELY.

CHARGE TIME FROM A FULLY EXHAUSTED BATTERY IS
APPROXIMATELY 4 HOURS TO FULL. IT IS RECOMMEND-
ED TO NOT LISTEN AND CHARGE YOUR CV5 WHILE USING
THE SUPPLIED POWER CHARGER. IF YOU REQUIRE
LISTENING WHILE ALSO CHARGING THE AMPLIFIER,
PLEASE CHARGE YOUR CV5 VIA STANDARD USB PORT
FROM ANY COMPUTER.

THE CV5 USES A HIGH GRADE MILITARY NOS VACUUM
TUBE FOR AMPLIFICATION. THIS TUBE IS SENSITIVE
TO CELL PHONE SIGNALS AND TDMA NOISE. FOR
CRITICAL LISTENING PLEASE KEEP YOUR CELL PHONE
IN 'AIRPLANE MODE' OR MOVE IT AWAY FROM THE CV5
WHILE LISTENING.
